Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-50, drawn to a purchasing system, method, and program and ordering receiving device for a virtual creature and robotic device which is programmed to act or move by transmitting question data regarding changeable items and conducting predetermined data processing in order to form the virtual creature or robot, classified in class 700, subclass 245. Examiner will interpret that the virtual creature and robotic device are the same. Furthermore, Examiner will interpret that the purchasing system and method; and the ordering receiving device are the same.
- II. Claims 51-75, drawn to a data sales agent system, method, device comprising consignment accepting means and a sales means, classified in class 705, subclass 26. Examiner will interpret that data sales agent system, method; and data sales device and method; and data agent system are the same. Furthermore, Examiner will interpret that virtual creature and robotic device are the same.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such

as a system, method and device having consignment accepting means and a sales means. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, their recognized divergent subject matter and different search, restriction for examination purposes as indicated is proper.

Due to the complex nature of the election/restriction a telephone call was not conducted.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marissa Thein whose telephone number is 703-305-5246. The examiner can normally be reached on M-F 8:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Olszewski can be reached on 703-308-5183. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
